fur of authur glanderosa Callicarpa Calycanth Caprifoliu To all Correspondents and Botanical Amateurs.—In consequence of the demise of Win. Prince, the forner proprietor, who died the past year at the advanced age of 75 years, the establishment has come into possession of the present proprietors—who, in transmitting their catalogue, announce to their correspondents throughout the world that they have renovated the whole business of the establishment, and that all orders will be executed, and all business transacted with the utmost accuracy and dispatch. They mention this because from the great age of the former proprietor, he could not for some years past well attend to extending its business, and had necessarily to entrust its operations very much to other hands employed for the purpose, and who consequently could not feel any real interest in its prosperity, or in extending its affairs.

As the steam ships now form the most rapid medium of correspondence. The following catalogues relative to the different departments of the establishment, may be obtained gratis of the different departments of the establishment, may be obtained gratis of the different agents, or by direct application to the proprietor.

No.1. Fruit and Hardy Ornamental Trees, Shrubs and Plants—pp. 72. Carpinus Castanea Catalpa sy Ceanothu Celastrus Celtis occ pu Cephalant Cercis can Chamæro Chimaphi Chionanth VALUE OF MONEY.

11, or dollar, contains 100 cents, and is equal to fix shillings and six pence (British) sterling; or to, five frames and thirty centimes of France; or t, two and a half guilders of Holland.

22 cents make one shilling sterling.

19 cents are equal to one frame of France.

40 cents are equal to one Dutch guilder.

21 is equal to one dollar and ten groschen Saxon currency, or to one and a half dollars Prussian currency. Cissus hed star Clematis VALEUR DE L'ARGENT.

\$1 ou un dollar contient cent cents. & est egal a quatre shelings & six pence sterling, de la Grand Bretagne, ou a cinque francs trente centimes de France, ou a deux et demie florins de la Hollande.

\$2 cents forment ou font un franc de France.

40 cents valent un florin Hollandais.

\$1 est equivaleus a un dollar et demie de Prusse, ou a un gourd et neuf groschen d'argent de Saxony. Clethra al to Compton Cornus flo A bushel of seeds contains 32 quarts, or 8 gallons.

A quart is the quarter of a gallon.

A b. is nearly the same us the b. of Europe.

31 Prussian loth are equal to a b.

A Prussian schefielts equal to 1 1:3 bushels.

N. B. Where no prices are stated in the Catalogue for seeds, packages can be put up at 25 cents each, or upwards. al MESURES & POIDS.

Un bushel (boisseau) de semences contient 32 quartes ou 8 galons.
Le quarte est la quartieme partie d'un galon.
Une lb. est a peupres egale a la lb. (livre) de l'Europe.
31 loth de Prusse sont egale a une lb. ou livre.
Un scheffel de Prusse est egale a 4-1-3 bushels.
Trois boisseaux de France-sont-egale a un bushel.
Deux lb. ou livres font un killogram.

N. B. Quant a ces especes ou il n y a point de prix fixé—on peut fournir des paquets a 25 cents pour chaque espece, ou pour une somme d'autant plus considerable qu'on peut on demander.
